

APROVE

Dean of Medicine Faculty
Dr. hab. in medicine, associate professor

Mircea BETIU

" 27 " Ianuarie 2023

STUDY PROGRAMME

according to the schedule at Pharmacology for students of Medicine 2 Faculty
III year of study, VI semester (Spring) of the academic year 2022-2023

Nr.	Data	Lectures	Seminars
1	2	3	4
1	30.01-03.02.23	Antiarrhythmics and antianginals.	Preparations with influence on the respiratory system.
2	06.02-10.02.23	Systemic and peripheral vasodilators (Cerebral anti-ischemic and anti-migraine drugs).	Tonic cardiac glycosides. Cardiotonificant drugs.
3	13.02-17.02.23	Systemic vasoconstrictors. Venotrops.	Antiarrhythmics and antianginals.
4	20.02-24.02.23	Diuretics. Anti-gout drugs, drugs used in nephrolithiasis and drugs with an influence on the acid-base balance.	Systemic vasodilators (antihypertensives) and vasoconstrictors (antihypotensives).
5	27.02-03.03.23	Drugs acting on the functions of the digestive tract.	Diuretics. Anti-gout drugs, drugs used in nephrolithiasis and drugs with an influence on the acid-base balance.
6	06.03-10.03.23	Antiseptic and disinfectant drugs. Sulfamides. Antibacterial chemotherapeutics with diverse chemical structure.	Drugs acting on the functions of the digestive tract. Antispasmodic drugs (musculotropic spasmolytics).
7	13.03-17.03.23	Antibiotics.	<i>Concluding test:</i> "Drugs with action on the respiratory, cardiovascular, digestive systems and diuretics".
8	20.03-24.03.23	Antiviral, antimycotic and antispirochete drugs.	Antiseptics and disinfectants. Sulfamides. Antibacterial chemotherapeutics with diverse chemical structure.

INSTITUȚIA PUBLICĂ
UNIVERSITATEA DE STAT DE MEDICINĂ ȘI FARMACIE
"NICOLAE TESTEMIȚANU" DIN REPUBLICA MOLDOVA, CATEDRA
FARMACOLOGIE ȘI FARMACOLOGIE CLINICĂ

9	27.03-31.03.23	Anti-tuberculosis, anti-leprosy, antiprotozoal and anthelmintic drugs.	Antibiotics.
10	03.04-07.04.23	Anti-inflammatory drugs.	Antiviral, antifungals, antispirochetous drugs.
11	10.04-14.04.23	Antiallergics, and drugs with influence on immune processes.	Anti-tuberculosis, anti-leprosy, anti-protozoal, anthelmintic drugs.
	15.04-24.04.23	Vacation	Vacation
12	25.04-28.04.23	Hormonal and antihormonal drugs (p.I).	<i>Concluding test:</i> "Antimicrobial and antiparasitic drugs".
13	01.05-05.05.23	Hormonal and antihormonal drugs (p. II). Oxytocytes and tocolytics.	Anti-inflammatory, antiallergics, and drugs with influence on immune processes.
14	08.05-12.05.23	Vitamins, enzymes and anti-enzymes. Medication used in obesity, hyperlipidemia (antiatherosclerotic), osteoporosis.	Hormonal and antihormonal drugs (p.I).
15	15.05-19.05.23	Antineoplastic, radioprotective, radiopaque drugs. Adverse drug reactions. Basic principles of treatment of acute intoxications. Drug interaction.	Hormonal and antihormonal drugs (p. II). Oxytocytes and tocolytics.

**Head of studies at the Department of Pharmacology
and clinical pharmacology
univ.assistant**

Tatiana Rakovskaia

**Head of Department of pharmacology and
clinical pharmacology
Dr. hab. in medicine, University Professor**

Nicolae Bacinschi
