Dean of Medicine 2 Faculty
Dr.hab.in medicine, Associate professor,
_____Mircea Bețiu

STUDY PROGRAME
at Pharmacology for students of Medicine 2 Faculty
3rd year of study, 6th semester of the
academic year 2025-2025

Nr.	Date	Theme of the lecture	Theme of the seminars
1	03.02.- 07.02.25	Systemic vasodilator and vasoconstrictor drugs	Cardiac glycosides. Cardiotstimulating drugs.
2	10.02- 14.02.25	Cerebral vasodilators drugs (cerebral antiischemics) and peripheral one. Antimigrainous drugs. Venotropic drugs.	Antiarrhythmic and antianginal drugs.
3	17.02- 21.02.25	Diuretics. Antigout preparations, used in nephrolithiasis and with influence on acid-base balance.	Systemic vasodilator (antihypertensive) and vasoconstrictor (antihypotensive) drugs.
4	24.02- 28.02.25	Preparations with influence on the respiratory system. Antiallergic preparations and with influence on immune processes.	Diuretics. Antigout drugs, medications used in nephrolithiasis and with influence on acid-base balance.
5	03.03- 07.03.25	Preparations with action on the functions of the digestive tract. Antispasmodic preparations (musculotropic spasmolytics).	<i>Concluding:</i> " Drugs acting on cardiovascular system. Diuretics. Antigout preparations. Medicines used in nephrolithiasis and with influence on acid-base balance.
6	10.03- 14.03.25	Hormonal and antihormonal preparations (p.I)	Drugs with influence on the respiratory system. Antiallergic preparations and with influence on immune processes.
7	17.03- 21.03.25	Hormonal and antihormonal preparations (p. II). Oxytocics and tocolytics.	Drugs with action on the functions of the digestive tract (p.I) and (p.II). Antispasmodic preparations (musculotropic spasmolytics).
8	24.03- 28.03.25	Antiseptic and disinfectant preparations. Sulfonamides. Antibacterial chemotherapeutics with diverse chemical structure.	Hormonal and antihormonal drugs. Oxytocics and tocolytics.
9	31.03- 04.04.25	Antibiotics.	<i>Concluding:</i> "Drugs with action on the respiratory system. Antiallergic preparations and with influence on immune processes. Medicine with action on the functions of the digestive tract (p.I) and (p.II). Antispasmodic preparations (musculotropic spasmolytics). Hormonal and antihormonal, oxytocic and

			tocolytic drugs.
10	07.04-11.04.25	Antiviral, antifungal and antispochete drugs.	Antiseptics and disinfectants. Sulfonamides. Antibacterial chemotherapeutics with diverse chemical structure.
11	14.04.-18.04.25	Antituberculosis, antileprosy, antiprotozoal and anthelmintic preparations.	Antibiotics.
	21.04-25.04.25	Easter holiday	Easter holiday
12	29.04.25-02.05.25	Vitamins, enzymes and antienzymes. Medication used in obesity, hyperlipidemia (antiatherosclerotic), osteoporosis.	Antiviral, antifungal and antispochetal drugs.
13	05.05-09.05.25	Antineoplastic, radioprotective and radiopaque preparations.	Antituberculosis, antileprosy, antiprotozoal and anthelmintic drugs.
14	12.05-16.05.25	Adverse drug reactions. Basic principles of treatment of acute poisoning. Drug interactions.	Concluding: "Antimicrobial and antiparasitic drugs. Antineoplastics".
15	19.05-23.05.25	Monoclonal Antibody Preparations	Adverse drug reactions. Basic principles of treatment of acute poisoning. Drug interactions.

Head of Department of
Pharmacology and Clinical Pharmacology,
Habilitation doctor in medicine, University Professor

Nicolae Bacinschi

Head of studies
department of pharmacology and clinical pharmacology,
university assistant

Carolina Catcov
